

MAKING IT WORK

BlendFlex as an “Unconventional Materials” Challenge

IDENTIFYING THE CHALLENGE

Consider entire
learning experience

Adjust course design to
suit BlendFlex format

Plan future
larger
adjustments

Implement smaller
changes now

REFRAMING THE DESIGN SPACE

In Class

Out of Class

MANIPULATING THE MATERIAL

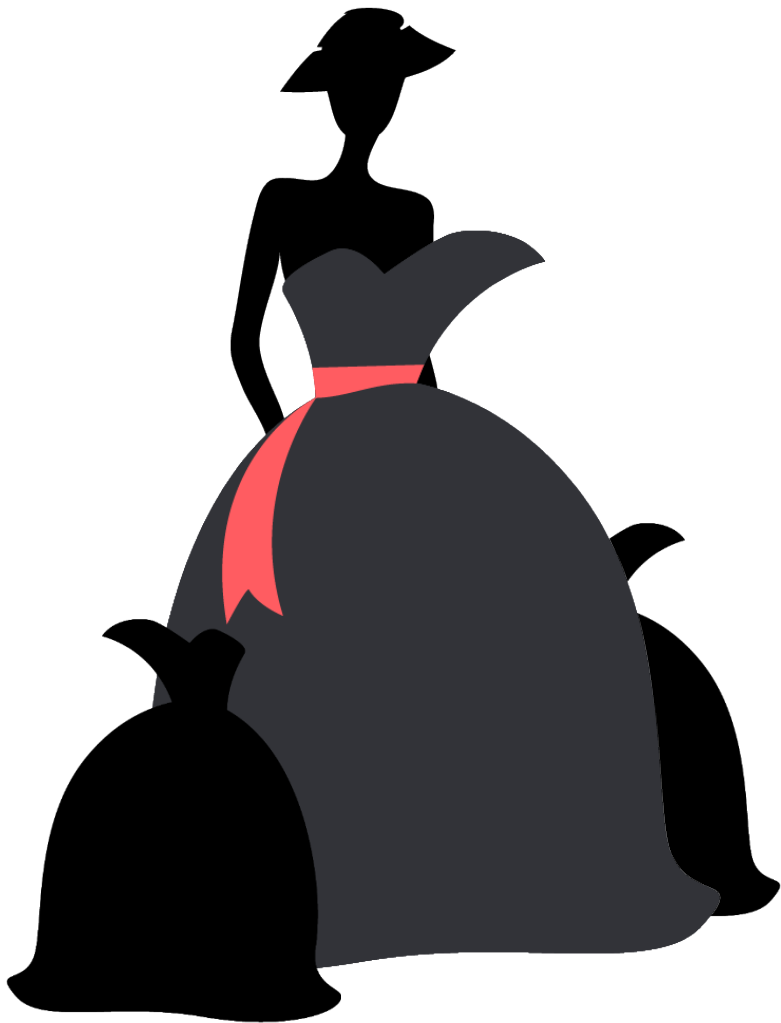

Synchronous

Asynchronous

MANIPULATING THE MATERIAL

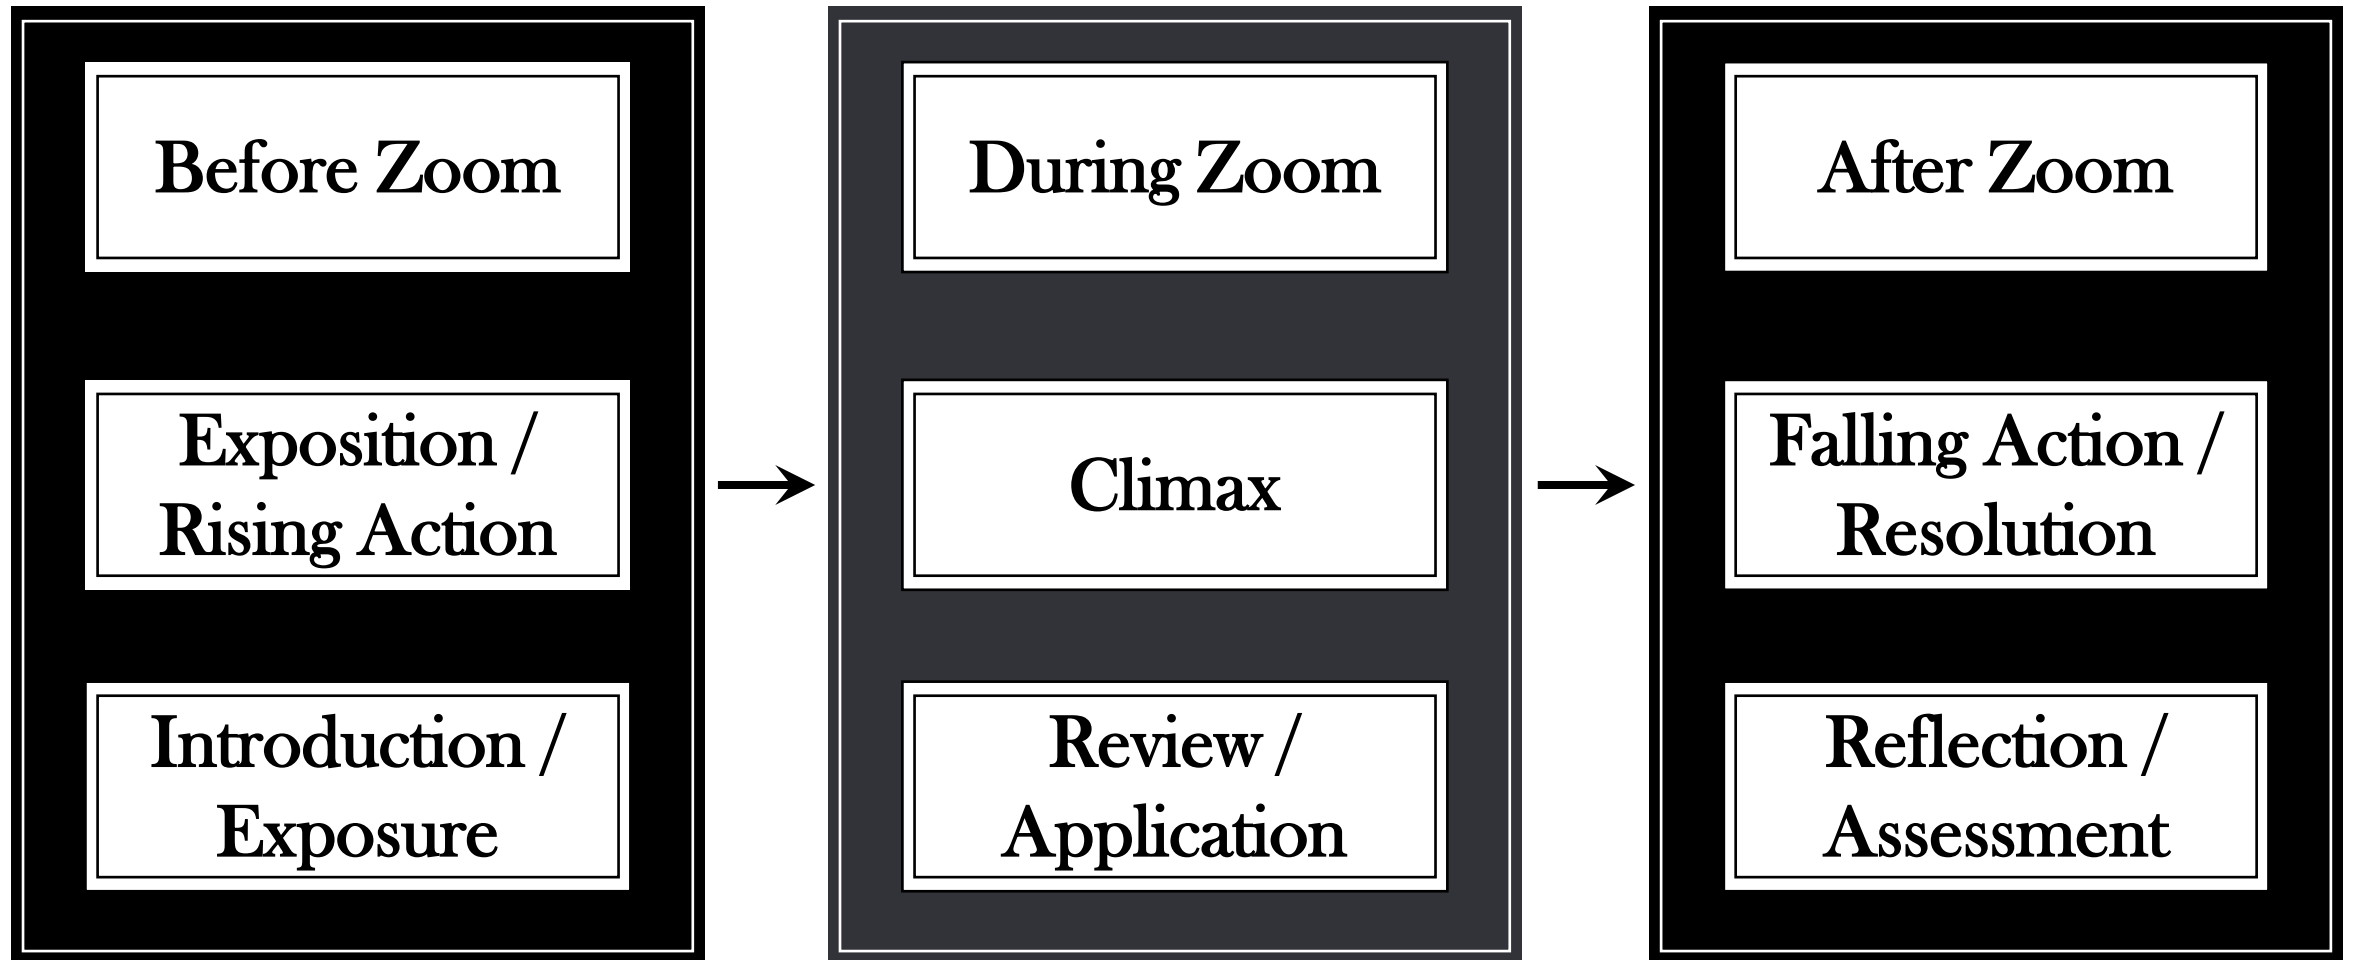

Efficient use of session time?

Better on students' own time?

Practical to do via Zoom?

Issues that hinder design?

BUILDING STRUCTURE

BUILDING STRUCTURE

Asynchronous

Introduce/Expose

/Passive/ Watch three instructor videos on basic concepts of audit risk (5-7 min each)

/Active/ After each video, complete auto-graded comprehension questions

Reinforce/Apply

/Active/ Explore simulated warehouse and note any potential risks you observe

/Active/ Post observations in forum and explain rationale; Comment on other posts

Synchronous

Introduce/Expose & Reinforce/Apply

/Active/ Brief recap and discussion of forum highlights

/Passive/ Listen to instructor explain more complex concepts of audit risk and strategy (~10 min per topic)

/Active/ After each topic, check understanding with a brief task.

Example: Sources of Risk

- (2 min) Zoom Poll
- (5 min) Pair/Group Question
- (3 min) Class Discussion

Asynchronous

Reinforce/Apply

/Active/ Complete practice quizzes

/Active/ Practice documentation with textbook spreadsheet simulation

Assess/Reflect

/Active/ Complete graded textbook homework questions; 3 attempts allowed
